Recovery isn't loud. It's a *wind-down*.

ACTIVE → SETTLED

BEMER supports the parasympathetic processes that help your horse relax and regenerate after the work is done.

The BEMER Horse-Set does not replace treatment and care of an injury or disease by a veterinarian. A veterinarian should be consulted prior to use of the BEMER Horse-Set for any medical condition.

— with BEMER typical

BEMER speeds up the recovery process after an injury and supports regeneration after surgery.**
